

STREET TREE FACT SHEET LEMON SCENTED GUM

BOTANIC NAME

Corymbia citriodora

DESCRIPTION

A large growing tree which offers decorative features, smooth bark and lemon scented leaves. Large creamy-white flowers are produced in clusters during Spring.

Ideal for parks and avenue planting.

WHY HAS THIS SPECIES BEEN CHOSEN?

We have selected this tree because it is:

- Native.
- Drought tolerant once established.
- Fits with the general environment of the street and suburb.
