

STREET TREE FACT SHEET

LITTLE SPOTTY

BOTANIC NAME

Eucalyptus mannifera 'Little spotty'

DESCRIPTION

An attractive native with a slender trunk and bark that is strongly spotted and ornamental. 'Little Spotty' was chosen for its smaller growth and ornamental features. This tree has wide spreading canopy. It has narrow thin green leaves and white flowers in the summer.

WHY HAS THIS SPECIES BEEN CHOSEN?

We have selected this tree because it is:

- Native.
- Drought tolerant once established.
- Fits with the general environment of the street and suburb.
