Doc No:

Dear resident

Re: Planned planting for Corio.

As part of our Urban Forest Strategy, we are planning to plant nature strip trees in your suburb from mid-April to June 2021.

To suit the available space and character of your street, we've selected a native evergreen called *Lophostemon confertus* (see fact sheet attached).

Following planting, we'll water the trees for two years to help them establish. Any additional watering you or your neighbours can provide would also be greatly appreciated.

We're planting these trees to meet our target of 25 per cent tree cover in urban Geelong by 2045.

For more information

- Contact Daniel Robins, Tree Planting Supervisor on 5272 5272 with any questions about the planting.
- Visit our website and search for 'urban forest strategy' to find out what else we're doing to make Geelong a cool, green city for the future.

Yours sincerely

A handwritten signature in blue ink, appearing to read "H. Chasemore".

HEATH CHASEMORE

CITY PARKS AND GARDENS

Attach: Tree fact sheet

STREET TREE FACT SHEET

BRUSHBOX

BOTANIC NAME

Lophostemon confertus

DESCRIPTION

An attractive shade tree with glossy dark green leaves with ornamental, rough scaly bark below shedding to a smooth pinkish-cinnamon to orangey- brown on the upper trunk & branches.

WHY HAS THIS SPECIES BEEN CHOSEN?

We have selected this tree because it is:

- Native.
- Drought tolerant once established.
- Fits with the general environment of the street and suburb.

GENERAL INFORMATION

Height:	10m tall
Width:	8m
Growth rate:	Moderate
Maintenance:	Low
Evergreen / Deciduous:	Evergreen
Flower colour:	Cream

* Estimated at 20 years in good growing conditions
